

BUILD YOUR PROJECT LEADERSHIP CAPABILITY

AESAP and Stratapro Consulting are proud to announce their strategic partnership in presenting the Advanced Project Management Training Programme. This collaboration is aimed at strengthening the capacity of built environment professionals by equipping participants with globally recognized project management knowledge, practical skills, and industry best practices based on the PMBOK® framework. The programme offers an excellent opportunity for professionals to enhance their competencies, earn Continuing Professional Development (CPD) recognition where applicable, and network with industry experts and peers from across the region.
